

**OCTOBER 14  
through  
OCTOBER 17**

## Construction Closures this Weekend

**Plan Ahead ▼**

This weekend, construction will result in the closure of the Eastbound (Lower) Deck of the Bay Bridge along with all Eastbound Approach on-ramps. Motorists should not attempt to use the Bay Bridge during these closure periods.

The West Approach is just one portion of the Bay Bridge undergoing improvements. For the next several years, traffic will be slowed by construction at various points on the bridge.

The best way to avoid traffic delays and disruptions is to plan ahead and make alternative travel arrangements whenever possible.

This weekend, BART will be operating additional trains round-the-clock.

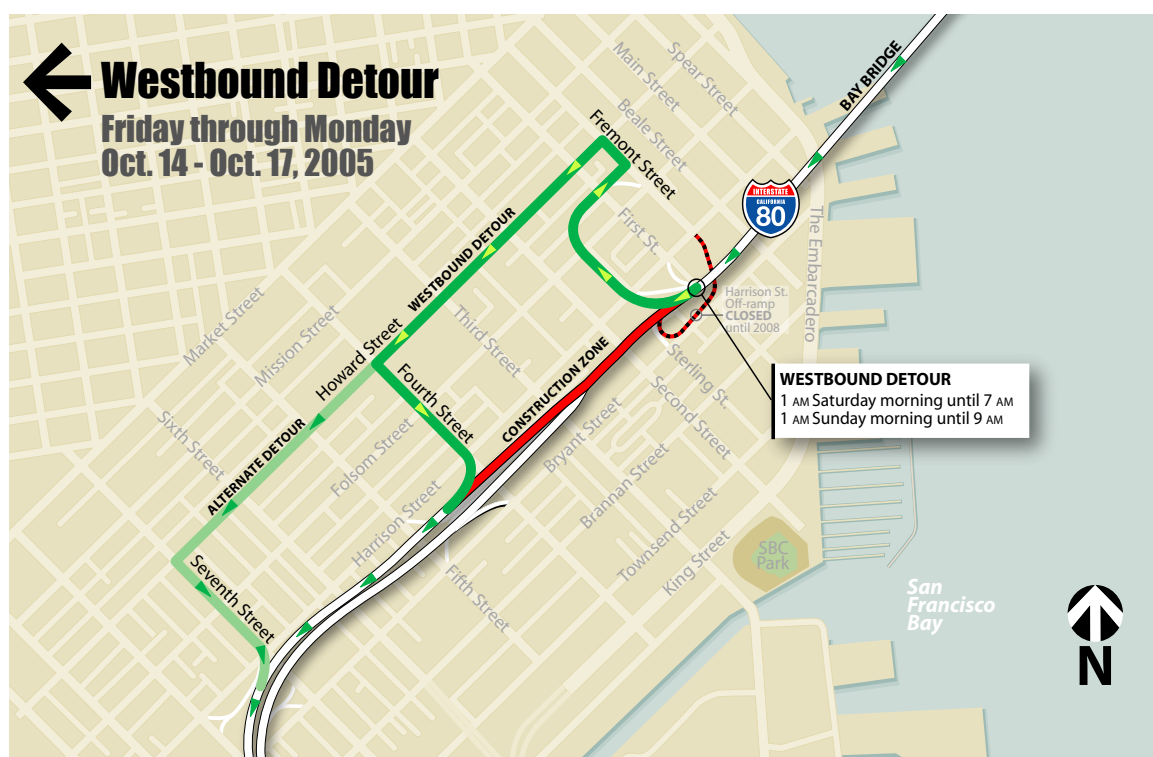

We urge motorists to avoid the Bay Bridge and to use BART, bus and ferry service. Visit the web sites below to learn more about alternative commuting options.
